Please note: Those with their calculated time in silver boxes ‘beat the train’ (based on the 15mph average speed of a steam train on the Worth Valley Railway line). Those in bronze boxes beat 10 mph. These standards will probably be revised in 2010 to make them a little easier.

For those who recorded their time from Keighley to Oxenhope Station the actual time of the diesel train that left at 9:40am was 16 minutes and 28 seconds.

Please note: The train took just 16mins and 28 seconds to reach Oxenhope. That is the fastest in the history of the event, next year we'll make a request stop at Damems Station to slow it down!

Those participants in Gold means beat the train, Silver means drew with the train and Bronze means beaten by the train.

Lees participants set off at 9:50am.
